

Wickford PDL

Loan Update Q1'24

The Wickford project is now over half-way through the loan term and construction has been progressing well. The rear block of six flats have been completed. To the front the new timber frame and roof will be completed this month and the windows should be installed in April to make the building wind and watertight.

Loan Update Q1'24

A show flat has been created in the rear block to assist the sales process and give potential buyers a sense of what the final development will look like.
